Consider the hazard your kerbside waste could create from accidental poisoning, drowning, injuries and contamination.

- Box, tie, or contain all small loose items
- Wrap sharp edges
- Take doors off whitegoods
- Remove or cut cords off faulty equipment
- Hazardous or toxic material should be personally taken to the landfill
- Dispose of fluids appropriately
- Place lids on containers and items that collect more than 30mm of water

Keep track of bin collection day and what can go in your recycling bin with our official bin and recycling app.
